

MAXIMIZE THE POWER OF N[®]

HOLD ON TO MORE N, LONGER, IN-SEASON

- Non-corrosive on tanks and equipment
- Slows nitrification and leaching of nitrogen fertilizer for below-ground protection
- Center pivot and irrigation approved
- Compatible with dry blends and most pre-plant liquid NPK blends

UAN applied with NDURE[®] DCD with
above average rainfall

**+8 bu/ac
on corn***

**20+ more
lb/ac of N in
soil samples
post-harvest***

**Higher stalk
nitrate levels
post-harvest***
(1,000+ PPM NO₃)

*Above average rainfall from April-September, data from multiple field studies on corn. Data on file, can provide upon request.
