

Control Grass Seed Pests with LOCK OUT®

LOCK OUT is a new formulation of 4% metaldehyde bait which provides control of snails and slugs. LOCK OUT is a pelleted molluscicide that starts working quickly and has excellent residual activity, helping growers avoid costly crop damage.

Features

- Pests controlled: snails and slugs
- Recommend rate: 15 - 20 lb/ac
- 4% metaldehyde throughout the pellet
- 17% metaldehyde coating
- Proprietary attractant package
- Comes in a 40-lb bag
- Pellet count/pound: 32,000 - 35,000
- Carrier: Wheat flour
- Color: Blue
- Odor: Wheat flour
- Pellet diameter: 0.09 - 0.12 inches
- Pellets are insoluble in water
- Untapped bulk density: 41-46 lb/ft³
- Store in a cool, dry location

Benefits:

- Maximum palatability
- Highly visible upon application
- Excellent weatherability
- Uniformity
- Works great in the drill box
- Smaller size for higher point source
- Can be blended with fertilizer
- Not D.O.T. regulated
- Under normal conditions, provides protection for 10-14 days
