

GDU to Mid-Silk 1215

GDU to Black Layer 2305

Pollination for Maturity Medium

HYBRID HIGHLIGHTS

- Versatile new product
- High ratings for Goss's wilt, NCLB and Tar spot
- Outstanding emergence and vigor
- Semi-flex ear with good stalks
- Impressive yield performance in 2021-22
- Plant at average to lower plant populations to manage root strength

High Yield	Above Avg

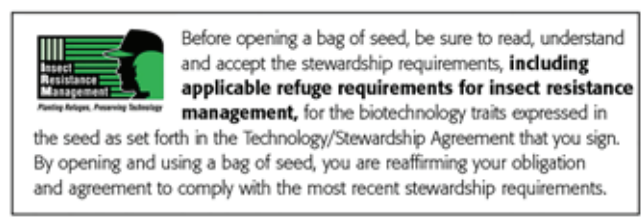

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post-emergent weed control of Liberty® herbicide for optimum yield and excellent weed control.

Corn trait technology incorporated into these seeds is commercialized under license from Syngenta Seeds, LLC. Herculex® Technology incorporated into these seeds is commercialized under license from Corteva Agriscience LLC.

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.
