GDU to Mid-Silk 1400

Pollination for Maturity Early

HYBRID HIGHLIGHTS

- Big time performance in 2023 university trials!
- Attractive, dual purpose type hybrid that is best positioned as a silage only hybrid
- Strong silage yield and quality best positioned on above average to high yield acres
- Very responsive to irrigation and added management
- Good Northern movement for RM

REGION ADAPTABILITY

AGRONOMICS

Greensnap	Above Avg
Stalks	Above Avg
Roots	Above Avg
Early Vigor	Above Avg
Drought Tolerance	Average
Silage Yield	Excellent
Feed Quality	Excellent

WATER MANAGEMENT

Full Irrigation	HR
Limited Irrigation	R
Rainfed	HR
Dryland (Stress)	NR

DISEASE TOLERANCE

N. Corn Leaf Blight [^]	Below Avg
Gray Leaf Spot	Very Good
Southern Leaf Blight	Above Avg
Goss's Wilt	Above Avg
Common Rust	Very Good
Southern Rust	Average
Tar Spot	N/A

MANAGEMENT RESPONSE

Added Management	Excellent
Fungicide Response	Very Good
Average Management	Very Good

PLANT DESCRIPTION

Plant Height	Med-Tall
Ear Height	Medium
Leaf Angle	Semi-Upright
Kernel Row	16-18
Cob Color	Red
Ear Length	Semi-Long
Ear Girth	Semi-Girthy
Ear Type	Semi-Flex
Husk Cover	Good

POPULATION MANAGEMENT

Yield Environment	Population Range
0-100	NR
101-150	20000-28000
151-200	28000-32000
201-250	32000-35000
251-300	35000-42000

HERBICIDE SENSITIVITY

Growth Regulator	Acceptable
Sulfonylureas Inhibitors (ALS)	Acceptable
Pigment Inhibitors (HPPD)	Acceptable

YIELD ENVIRONMENT PLACEMENT

Tough^Below Avg	
Variable	Very Good
High Yield	Excellent

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium based herbicides.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, nonselective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control. LibertyLink®, Liberty® and the Water Droplet logo are registered trademarks of BASF.

Corn trait technology incorporated into these seeds is commercialized under license from Syngenta Seeds, Inc. Herculex® Technology incorporated into these seeds is commercialized under license from Corteva Agriscience LLC. HERCULEX® and the HERCULEX Shield are trademarks of Corteva Agriscience LLC. Agrisure®, Agrisure Viptera®, and E-Z Refuge® are registered trademarks of Syngenta Group Company. All other trademarks are the property of their respective owners.

Always follow grain marketing and IRM requirements and pesticide label directions. Agronomic characteristics and ratings may vary with growing conditions and environment. Ratings are approximate and should not be considered as absolute. Ratings on new products are based on limited data and may change as more data are collected. Extreme or variable conditions may adversely affect performance. WILBUR ELLIS logo, INTEGRA and INTEGRA logo are registered trademarks of Wilbur-Ellis Company LLC.

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.
